## I. A WORD FROM OUR FOUNDER

Our impact wouldn't be possible without the newly forged management team, our Board of Directors, led by Chair, Suzanne Rotondo in 2022, and significant donations from the Honey Pot Company, the Dunn Family Charitable Foundation, the Segal Family Foundation, TEEEM and countless other individual donors and supporters including across the world.

Our top priorities for 2023 include expanding our strategic partnerships across the different program areas, refining our assessment and monitoring program, growing our VOICES initiative, all while tuning our internal operations as we continue to scale activities.

I am extremely touched by the trust you have in me and the support you have shown to the Georgie Badiel Foundation. It is a privilege to work with you and lend my voice as an advocate for human rights and to ensure clean drinking water for the people of Burkina Faso.

Sincerely,

**Georgie Badiel Liberty**

Founder and Chief Executive Officer

Georgie Badiel Foundation

## II. VISION & STRATEGIC OBJECTIVE

Our Vision for the organization is that every person in Burkina Faso has equitable access to safe, uninterrupted, and sustainable water by 2030.

In Burkina Faso, there are disparities related to water, sanitation, and hygiene (WASH) access throughout the territory depending on whether it is an urban, peri-urban or rural area. In urban areas, approximately 93% of the population have access to drinking water, in the rural areas the rate falls dramatically to below 37%. According to the latest update from the Ministry of Water in Burkina Faso, over 5,769 wells are broken-down, most of which are in rural or peri-urban areas.

Since 2015, the Georgie Badiel Foundation has implemented an ambitious program in Burkina Faso to improve living conditions through ensuring the sustainable supply of potable water and the promotion of sanitation and hygiene, especially in rural areas where there is high need and a lack of resources.

The Foundation has differentiated itself by uniquely focusing on the empowerment of local women to ensure sustainable water access. By training community women on basic engineering to restore, maintain, evaluate, and monitor their local water systems we are building community resilience. Educational programs in Burkina Faso and through our School Centered Program are also delivered on water, sanitation, hygiene, and climate mitigation.

Since we began operations, the Foundation has provided more than 341,085 people in Burkina Faso access to clean drinking water, through the support of generous donors and partners.

## STRATEGIC PRIORITIES FOR 2022 – 2025

The Strategic Plan 2022-2025 details the mid-term strategy for the Georgie Badiel Foundation in supporting Burkina Faso in meeting Global Goals, specifically Sustainable Development Goal 6 targets. We are currently in the first phase of our 2022-2030, eight-year plan.

The implementation of the impact Strategic Plan is led by a core team including Georgie Badiel Liberty, the Founder and Chief Executive Officer, Sonia Savadogo-Songnaba, the Chief Operating Officer, Madlena Kalinova, the Chief Marketing Officer and Kathy M Villone, the School Program Coordinator. Activities on the ground in Burkina Faso are executed by a local team of 44, supervised by Zakaria Ouedraogo, Engineer and Countr Manager.

We recognize that our impact is dependent on the people, systems and resources that support our work. To maximize our organizational growth & health and attain the highest standard of operations, during the 4-year period the organization is engaging with donors, and strategic partners sharing similar values to support activities linked to the following Strategic Objectives:

### **STRATEGIC OBJECTIVE 1:**

Ensure operational rigor, accountability & capacity strengthening.

### **STRATEGIC OBJECTIVE 2:**

Grow funding base to invest in program delivery & organizational growth.

### **STRATEGIC OBJECTIVE 3:**

Maximize our impact in Burkina Faso by expanding and piloting new programs to provide access to clean water to 5 million people. organizational growth.

### III. WELL REPAIR & WOMEN'S EMPOWERMENT TRAINING PROGRAM

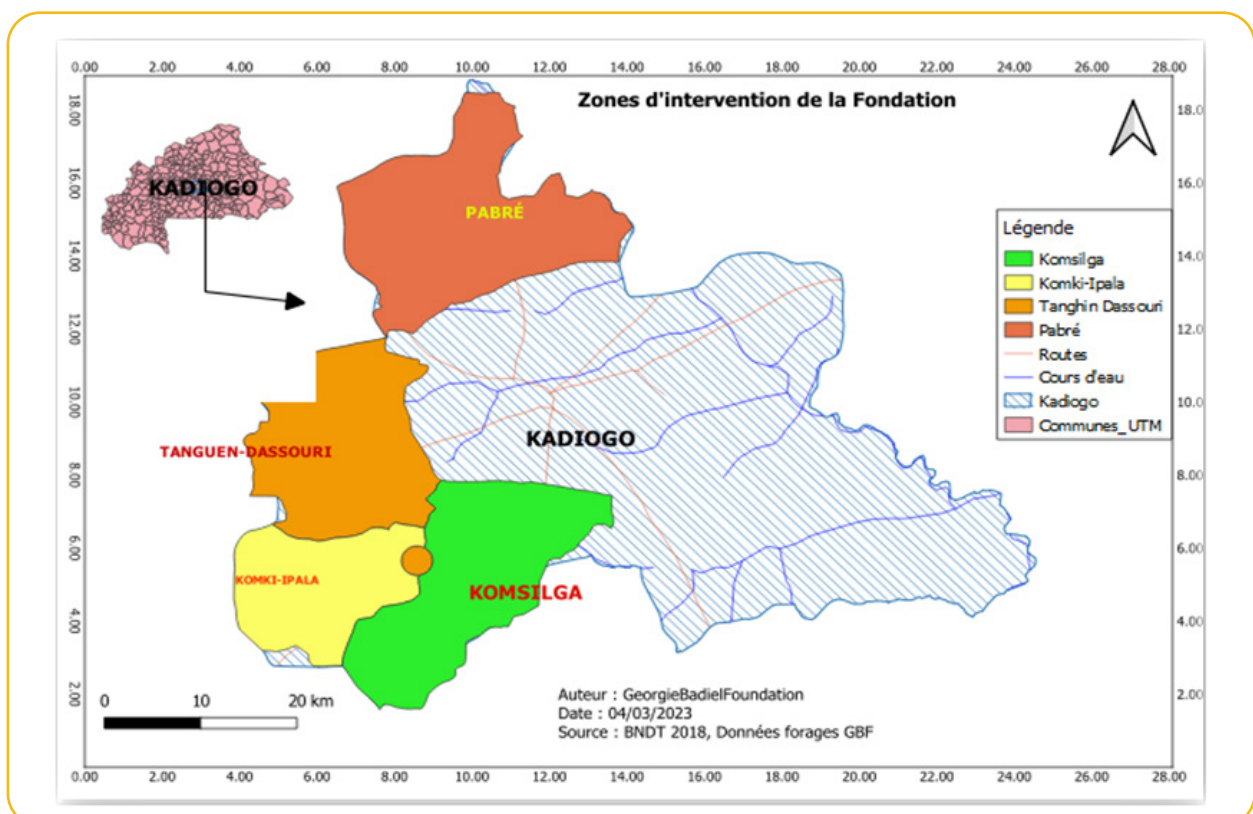

During 2022, the Foundation's work was facilitated with the arrival of the new drilling truck, generously funded by Dunn Family Charitable Foundation and Honey Pot Company.

This year, the Foundation repaired and serviced 50 manual pumps that had previously broken down in the intervention area covering rural municipalities in the Province of Kadiogo, Central Region: Tanghin Dassouri, Komki-Ipala, Komsilaga and Pabré.

A total of one 100 women were trained by the Foundation in the monitoring and maintenance of the pumps. In partnership with each community, two local women were identified and assigned to monitor the restore pumps. At each repair and intervention point, the Foundation was formally introduced to and engaged with community members. Awareness sessions on good hygiene, sanitation and pump maintenance practices were offered to the community beneficiaries around the boreholes.

The field assessments showed that there is practically no active water point management committees serving these communes, and it was clear that the pumps in the three municipalities lacked regular maintenance. The absence of good hygiene practices was expressed as a concern by the community and needed to be addressed by the Foundation for the well-being of the populations.

As seen in Figure 1, the focus areas for 2022 and 2023 interventions are rural municipalities in the Province of Kadiogo, Central Region: Tanghin Dassouri, Komki-Ipala, Komsilaga and Pabré.

The following are a few of the situations encountered by the Foundation team during the pump assessments, repairs and community interventions at different sites and villages. These cases serve as examples of the realities on the ground in rural areas.

The case of the Village of Tambetin: The Nabiyiri borehole pump had been out of service for at least 3 years. According to the local women, they travelled more than 4 kilometers to source water. The community gardening and food security was also impacted since their crops could only be grown during periods when secondary sources nearby contained water.

The case of the Village of Kienfangué: The conclusion from assessment of the Zamnogo borehole was that the pipes and rods of the pump were corroded and cracked, and the cylinder was damaged. This borehole serves a primary school with more than 235 students. The borehole had been down for approximately 7 months creating a crisis for the students and the surrounding community. This also had an impact on hand hygiene and sanitation and the ability of students to arrive on time for classes.

The case of Toéghin: The engineering team identified the damaged head of the pump and the tank-spout. The lack of

hygiene around the water point was also a serious concern. This was accentuated by the high number of users (more than 200 people per day) who are often sick and travel to the area for traditional healing and care. According to people present at the time of the assessment, quarrels often arose when it comes to practicing good hygiene practices around the water point.

The following recommendations were made by the team in Burkina Faso for the Foundation to develop a comprehensive approach to sustainable activities around the boreholes:

- Conduct an in-depth study on the preservation of water quality along the water chain and propose measures to consider good practices in households. Taking this recommendation into account implies expanding the Foundation's role in the quality of household drinking water;
- Conduct campaigns to set up or raise awareness and train water point management committees; this would further ensure sustainable management of the pump and borehole structures.
- Submit research topics to trainees on the real causes (anthropogenic, natural, technical) of the malfunctioning of manual pumps.

## VI. “OASIS” WATER STATION PROGRAM

As nearly 63% of Burkina Faso’s rural population lacks access to an adequate supply of safe water and only 25% of the population has access to sanitation facilities, in 2022, the Foundation developed the “OASIS” water station concept. The objective is to set up an innovative and integrated project design that focuses on the needs of women and children in terms of access to water and well-being.

The model has 4 essential components aiming to improve the living conditions of the beneficiaries as follows:

1. Equitable supply and access to drinking water: this is the distribution and equitable access of potable water to the community. For sustainability and maintenance of the solar power station, a small fee is paid at the pump by the users.
2. Empower women while building food security: This component seeks to support the financial autonomy of women and build food security in the villages by providing a delineated space for community gardening and basic agriculture.
3. Accessible sanitation: This involves the construction of a double latrine near each perimeter of the project to enable beneficiaries of the station to access toilet facilities and improve sanitation.
4. Generate solar power: Electricity generated at the site provides for the basic needs and security of the facility and light for children to study at night.

## THE OASIS MODEL REQUIRES THE FOLLOWING PHASES:

**1** This first essential phase consists of the identification of project sites, presentation of the project to the beneficiaries and landowners followed by the purchase of land. This stage ends with drilling, pumping and water quality analysis and the launch of the boreholes.

**2** The second phase includes set up of the hydraulic equipment works (pumping, storage and distribution system) and the development of the agricultural perimeter.

**3** This last phase in the establishment of the OASIS site focuses on the training of local women who will intervene on the agricultural perimeter.

In 2022, funding generated by the Georgie Badiel Foundation and its partners, supported the design and development of 7 OASIS stations including the accompanying market garden areas and latrines. A significant amount of time was spent in working with the communities to ensure their buy-in as active stakeholders committed to the project and agreements on the purchase of the lands by the Foundation for the OASIS project sites. Therefore, the drilling of new boreholes delayed implementation into mid-December 2022. The 2022 implementation program is now overlapping into our 2023 impact projects. Our organization is deeply embedded in the community, and we are committed to taking the necessary time needed to build sustainable projects with the local stakeholders, even if it means adapting our projected work plans accordingly.

Despite encountering 3 boreholes that did not meet regulation standards for water provision and a few necessary amendments to the budget allocated to the project, the repaired wells and completed OASIS stations are projected to serve approximately 40,000 people. With the agricultural perimeters developed, women, and even families, will be able to empower themselves financially and improve their food security through market gardening activities.

## V. SCHOOL CENTERED PROGRAM

This program is designed to encourage youth to participate in service-learning opportunities by addressing real world challenges by organizing fundraising campaigns and creating sustainable solutions. The goal is to give students from primary to secondary school a platform to care, serve, lead and actively and compassionately respond to the needs of others. Activities and engagements revolve around the children's book, "The Water Princess" and discussions directly with Georgie Badiel Liberty about her lived childhood experience and the human right to access to clean water. This program is set up to forge a generation that is sensitive to global problems and the importance of empathy and contributing to solutions, even with small actions.

Collaboration continues with The Empathy, Equality, Entrepreneurship Mission (TEEEM) a US-based non-profit organization that teaches students about global issues and humanitarianism. Our partnership serves to grow the Foundation's Secondary School or high school partners and raise funds for our programs through matching funds.

The School Centered program will continue to develop relationships with established educational organizations to collaborate on existing curricula. During engagements in 2022, there were opportunities to discuss the gender gap in science, technology, engineering, and mathematics (STEM). Students and schools expressed interest in the Foundation's women's empowerment work and in ways to promote and inspire girls to participate in STEM fields.

Looking forward, there will be increased social media sharing to reflect content relevant to students, such as the International Day of the Girl, World Water Day, Earth Day etc. There are also discussions on various campaigns and challenges to engage more high school students as they form the next generation of advocates and activists.

By working with collaborators, like H2O for Life, we plan to further inspire youth to take action to solve the global water crisis. We are exploring the opportunity for US schools to 'adopt' and partner with local schools in Burkina Faso in 2023.

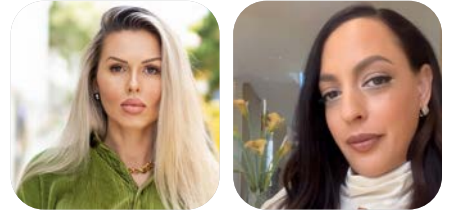

## VI. VOICES FOR CLEAN WATER INITIATIVE

"By connecting with each other and working together, we can make a positive change in Burkina Faso."

- **Madlena Kalinova**

As staunch advocates for the human right to water and sanitation, Georgie Badiel Liberty and supermodel Madlena Kalinova co-designed the "VOICES" for Clean Water" initiative. They both recognized the amplifying power of their social media influence in raising awareness and elevating important human rights topics and designed this initiative to include other like-minded influencers. The VOICES initiative provides a platform to elevate influencers voices to advocate for the human right to clean water. This diverse group of dynamic and influential people ranging from models, musicians, designers, business owners and beyond will be engaged and provided with information to reach their audiences and followers to advocate for global access to clean drinking water.

The "Voices for Clean Water" initiative was launched on World Water Day, March 22, 2023, at the Permanent Mission of Burkina Faso to the United Nations in New York. Nearly 30 international influencers have already joined the campaign, including Eliya Cioccolato (2.5 million followers), Daniela Botero (1 million followers), the musician Shaggy (838K followers) and Ashley Haas (315K) followers. Additionally, several influencers are committing a percentage of sales proceeds from their private companies to support the Georgie Badiel Foundation.

## IX. CONCLUSION

This year was one of growth and perseverance for the Georgie Badiel Foundation. The management team grew and was able to engage with more partners, launch the new VOICES initiative and design and begin implementation of the OASIS water stations. Significant funds from generous donors ensured the empowering basic engineering training of 100 women to ensure sustainable access to water. The long-awaited well-drilling machine/truck was delivered to Burkina Faso and replaced the need for the Foundation to hire external drilling equipment.

In 2022, the Foundation team in Burkina Faso was able to complete 57 water projects which is projected to impact approximately 40,000 people in the intervention area covering rural municipalities in the Province of Kadiogo, Central Region: Tanghin Dassouri, Komki-Ipala, Komsilaga and Pabré.

It is a fact that globally the burden of fetching water falls disproportionately on women and children. Through our water projects this year women, girls and young boys in the intervention areas will now have thousands of more hours to spend with their families, on childcare, other household tasks, education or even leisure activities and play.
